SUMMARY

Dynamic and innovative software developer with a solid background in full-stack web development, acquired from an intensive program at App Academy. Skilled in a range of technologies including React, Redux, JavaScript, Node.js, Python, SQL, and cloud services.

SKILLS
React, Redux, Javascript, Node.js, SQL,Git, HTML5,CSS3, Python, Express, Flask, AWS, Docker

PROJECTS

Carsy (React, Redux, Javascript, HTML5, CSS3, Python, Flask, SQLalchemy, Docker, AWS,S3)   Live Site | Github

- Improved backend system performance implementing PostgreSQL, leading to a significant increase in system performance and data retrieval efficiency
- Utilized Redux in React application to manage global state, markedly improving load times
- Implemented a dynamic carousel feature in the React app to enhance the photo browsing experience, for smoother user interaction and visually appealing transitions.
- Implemented customer user authentication utilizing BCrypt Hashing Function on the backend and React Auth Routes on the frontend to prevent storage of plain text passwords and to restrict access to user specific data and features

Jinglefy (React, Redux,Javascript, HTML5, CSS3,Python,Flask,SQL,Docker, AWS,S3)   Live Site | Github

- Participated in a team of four to clone Spotify with front-end development using React,Redux.
- Implemented AWS S3 buckets for separate storage of images and music files, significantly reducing server load and enhancing media access speed.
- Employed Flask SQLAlchemy for database operations,managing data in a Python environment which improved database efficiency
- Collaborated effectively with team members using GitHub for version control, contributing to timely project completion.

EXPERIENCE

Golden Steps ABA, *Registered Behavior Technician* - Boston, MA   June 2022 - July 2023

- Developed and implemented individualized behavior intervention plans for 3 clients
